report to the listener

Dear Listener,

For those of you who haven't heard the results of KPFK's June Fund Drive, I'm pleased to announce that we — and *you* — have broken another record! Our projected \$190,000 goal was surpassed by well over \$16,000 — and in only nine days! Congratulations all around, and a special welcome to those of you who are receiving the *Folio* for the first time.

Alan Fong

Summer finds us immersed in budget and planning issues. Our growing financial expectations must undergo careful consideration before the start of the new fiscal year on October 1st.

Over the next several months KPFK will embark on a process of strategic and long-range planning aimed at defining where the station should be and how we can get there. The process will seek to combine all our head-strong opinions and heartfelt dreams with objective data to create an attainable vision. You'll be hearing more about this process — and *your* role in it — as time goes on.

While summer brings with it a certain seasonal malaise, critical issues abound. Three situations in the national arena demand attention, any or all of which could result in congressional hearings and investigative reporting: the appointment of Robert Gates as the new Director of the Central Intelligence Agency; the possibility of a renewed probe into the so-called "October Surprise"; the confirmation hearings for Supreme Court nominee Clarence Thomas. Please be aware that live hearing coverage or other specials from Pacifica National Programming may supersede our planned schedule if, and when, these stories break. Stay tuned for the latest information!

As the information unfolds, and because, as Mark Twain observed, "a lie gets halfway round the world before the truth gets its boots on," KPFK is here thanks to your desire to win the race.

The Pacifica Foundation provides the KPFK mailing list to an organization which in turn rents or exchanges, on behalf of the Foundation, mailing lists of other non-profit organizations. If you object to having your name and address used in this way, please write to our Subscriptions Department, enclosing a recent Folio label, and we will omit you from our exchange list.

If your request has already been entered into the computer, the letters "NX" will appear on the top line of your mailing label, to the right of the expiration date.

This year, we show that the Melville industry has turned Captain Ahab (the voice of the critical and compassionate enlightenment) into a monster who anticipated Hitler and Stalin, the voice of an America that will destroy itself and the world. i.e. the voice of the Tory has been heard in the promised land and it misdescribes *Moby Dick*.

10:00-Mid

**THE NEW NATIONAL ORDER & THE
THREAT TO OUR CONSTITUTION**

Some recent developments in the Supreme Court and the U.S. Congress are threatening the very foundation of the Constitution. Some examples include: rulings allowing the use of coerced confessions to stand in criminal cases, permitting evidence about a murder victim's character to influence sentencing, prohibiting federally funded family planning clinics from advising women about abortions. Posing the biggest threat to the Constitution, however, is the President's Anti-Crime/Anti-Terrorism proposal.

Expected speakers include Civil Rights attorney William Kuntzler; Debra Jackson of the National Conference of Black Lawyers; Victor Navasky, editor of *The Nation* and Ward Churchill, author of many works on COINTELPRO and the FBI. Testimonials are expected from Salvadoran political refugees, Palestinian-Americans harassed during the Gulf War, and others.

The proceedings will be put into historical context by Howard Zinn.

Produced by WBAI, Pacifica Radio, New York.

DR. STRANGELOVE'S CHILDREN: THE GLOBAL SPREAD OF NUCLEAR WEAPONS

Parts 1 and 2 This series presents the 40-year history of nuclear proliferation and examines the forces behind it by asking such questions as: What promise does nuclear energy hold for the lesser developed nations of the world? Are the benefits of nuclear development worth the high cost, measured in billions of dollars? Who are the suppliers of nuclear technology and how dependent are they on nuclear trade with developing countries? What has the been the policy of the United States and other nuclear nations toward proliferation?

Dr. Strangelove's Children also takes a look at some of the nuclear "trouble spots" in the world today, including the Middle East and South Asia where two traditional enemies, India and

Pakistan, now face each other with nuclear weapons.

The program addresses serious issues in a historical context with archival news reports, location sound recordings and music.

Soweto Anniversary—An Encore Presentation This year the anniversary of the Soweto uprising was dominated by a climate of negotiations for a non-racial South Africa: Though the international community is rewarding Frederick De Klerk for removing the main pillars of Apartheid, there is still no evidence of one-man-one-vote. We examine the issues in the negotiations and the future prospects in a country where the most basic freedoms have been denied. Social balance should be achieved through education, ironically the very issue that brought about the student revolt on June 16, 1976.

Scholars, South Africans and Africans from other parts of the continent debated the issues in this program hosted by Assumpta Oturu.

Rounder and Revere Records Some years back, during the flowering of KPFK's Folk Festivals and Winterfaire, Mario Casetta featured an LP of traditional Christmas carols. In spite of the fact that they were the old chestnuts worn so thin by elevators, Mario decided to offer listeners a guitarist named Lewis Ross. The album was an immediate success and sold some umpteen copies at that year's Christmas Faire. This morning, Mario again offers Lewis Ross with his latest CD (still of Revere Records) "Cruising in the Moonlight." But this time, we're talking piano keyboard and a computer. He is an outstanding musician. And turning to that outstanding label, Rounder Records, Jody Stecher and Kate Brislin "Blue Lightning" and Tony de la Rosa "Asi Se Baila En Tejaz" with post-1940s conjunto style. A truly satisfying pair of CDs.
